# HireSelect®

We make integration simple for you

ATS Integrations

Already use an applicant tracking system, or ATS? Criteria's testing platform, HireSelect®, makes it easy to seamlessly integrate your candidate test results with the ATS of your choosing. Integrating with an ATS allows you to push the test results directly into the candidate record within the ATS, organizing all the information you need to make hiring decisions in one place.

We partner with a large selection of ATS providers, and our open API makes it easy to connect with any ATS that has an open API.

Connect HireSelect With Your ATS

greenhouse | workable | Jobvite | breezy

JazzHR | SmartRecruiters | ApplicantPRO | ascentis

bambooHR | HYRELL | Deltek | myStaffingPro®

Taleo | ApplicantStack | ATS OnDemand Innovative Applicant Tracking | hirebridge
